What people are saying?

"I love using Kidswise material. Firstly, it centres everything... talk, games, songs, activities, discussions... around one clear main point from the Bible. Secondly, it is a great resource for my leaders giving them more than enough age appropriate material to use each week."

"Southern Cross' Sunday School (Cape Town) has been built on the resources found on Kidswise. We have utilized everything off of this site - the mini movies, the power points, the dramas, the lesson material and the memory verses and it has left both Sunday School teacher and child very excited about what they have learnt. Our families have fed back to us conversations taking place around the lunch table about what has been taught and the way Bible truths have been communicated. We feel so indebted and grateful to Kidswise for the amazing journey our Sunday School has had through the Bible using the many resources offered online."
